

HOW TO USE THE LEAD SCANNER

All contacts registered as an exhibitor through the Bharat Electricity Summit Exhibitor Portal automatically have access to lead scanning via the Bharat Electricity Summit Mobile App.

1

Download the Bharat Electricity Summit Mobile App and log in using the mobile number you used to register as an exhibitor.

2

From the app home screen, tap 'My Badge' at the top of the screen.

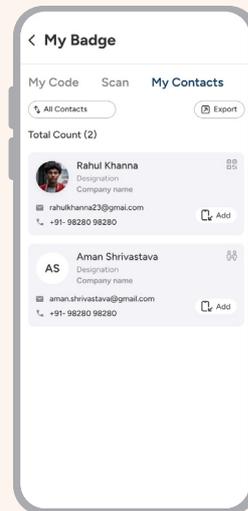

3

Select 'Scan' and point your device at an attendee's badge to capture their details.

4

All scanned contacts are stored under 'My Contacts', allowing exhibitors to easily access, export and follow up with leads after the event.

For your Mobile App and lead-scanning queries, please contact: app@bharatelectricitysummit.com
